PREFACE.

IT is somewhat difficult for anyone unfamiliar with the records in the Probate Registry at Exeter to find his way through the intricacies of the various calendars, so the following notes are offered chiefly as a guide for beginners.

Assuming that the searcher knows the residence of the testator or intestate, and the approximate date of his death, he may learn from the accompanying descriptive list in which calendars search should first be made for the probate of the will, or the administration of the estate, and as a rule he should search (I) the calendar of the Archidiaconal Court in whose jurisdiction the residence was situated, (2) the calendar of the Bishop's Principal Registry, and (3) that of his Consistory Court. But if this search shouldfail to disclose the record of the desired will or administration, he should patiently examine one calendar after another; for, as has been well said, the method adopted by the registrars of the various courts in the old days resembled a game of 'grab,' each one desiring to enter a cause in his own court, probably with an eye to the fee. This frequently resulted in the entry of a will and various copies of the same in several courts, to the discomfort, no doubt, of the heirs and to the diminution of the estate. It will be seen how this was possible through the overlapping of the different jurisdictions.

The old wills now preserved in the present Registry were transferred from their various depositories in 1858, under Statute 20 and 21 Vict., c. 77, sect. 89. Before that date they were scattered throughout the diocese. The Episcopal Principal Registry kept its documents in the Bishop's Muniment Room over St. James's Chapel in the Cathedral Church of Exeter; and over the north porch of the Cathedral were deposited those of the Consistory Courts of the Bishop, of the Dean and Chapter, and of the

Archdeacon of Exeter; those of the Peculiar of the Vicars Choral were preserved in their Registrar's office; and those of the other archdeaconries were stored, one in the parish church of Barnstaple and the other in a house in Totnes; with respect to the eighth court, the Peculiar of the Dean of Exeter, the last Deputy-Registrar also filled the same office in the Consistory Court of the Archdeacon of Barnstaple, and it is believed that the wills of the Peculiar Court were also kept at Barnstaple, or, at any rate, during his Deputy-Registrarship, and probably in the same place as those of the Archidiaconal Court.

It was, therefore, a red-letter day for the archæological student when all these documents were transferred to their present resting-place in Exeter. The above system of keeping them, and the alterations that possibly occurred from time to time as changes of Registrar took place, may account for the loss of a good many of the very early wills.

A curious custom explains certain gaps in some of the calendars, viz., that during the two months in which the Bishop visited the different archdeaconries their courts were inhibited, all testamentary business during that period being transacted in his Principal Registry. As his visitations formerly included the Archdeaconry of Cornwall, and as he had jurisdiction over all persons dying within the Diocese of Exeter possessed of personalty in more than one subordinate jurisdiction within the said diocese, and over all beneficed clergy dying within the said diocese, not possessed of bona notabilia in any other diocese, a large number of old Cornish wills are in this registry. Many more are also to be found in the Consistory Courts of the Bishop, and of the Dean and Chapter of Exeter. But it should be mentioned that all the wills proved in the Consistorial Archidiaconal Court of Cornwall, including those of the Devon parishes of North Petherwyn, St. Giles in the Heath, Northcot, and Werrington, and in the Court of the Royal Peculiar of St. Buryan (which also included the parishes of St. Levan and St. Sennen), are at Bodmin.

There was one other court, that of the Prebendary of Uffculme in the Cathedral Church of Salisbury, which had jurisdiction over the whole parish of Uffculme, and the records of this are not in Exeter. The documents belonging to it prior to

1800 are preserved at Somerset House, and from that date in the District Registry at Salisbury. Its earliest recorded will is dated 1623, and the calendar contains 329 entries between that date and 1857, or an average of something less than one and a half wills per annum.¹

It will be apparent from the foregoing statements that although there are eleven courts mentioned as belonging to Devon in the Parliamentary Paper (No. 177) dealing with the authorities for granting Probate of Wills and Letters of Administration in England and Wales, printed in 1829, the records of only eight remain in Exeter, the two belonging to Cornwall and the one belonging in the above circumstances to Salisbury being elsewhere.

Genealogists should also note that wills from the parish of Thorncombe, now in the county of Dorset and diocese of Salisbury, will, prior to 5th October, 1836, be found at Exeter, but that wills from the parishes of Stockland and Dalwood, now in the county of Devon and diocese of Exeter, will not, prior to the above date, be found there, the respective jurisdictions having then been exchanged by Order in Council. For Thorncombe wills since such date, and Stockland and Dalwood wills prior thereto, search must be made at Blandford.²

It should be mentioned that there are not many Act Books at Exeter devoted to recording letters of administration, and that there are no books of registered wills from the early part of the seventeenth to the latter part of the eighteenth century, so that, during that period, the genealogist, even though he has the 'literary permit' of the Principal Probate Registry, will, when he has been so fortunate as to find the will or administration wanted, be obliged to pay the search fee of 1s. for the production of the original documents.

It will be noticed that the earliest date of any will now extant at the Probate Registry in Exeter is 1532, in the Consistory

¹ From a list kindly furnished by Mr. H. Elliott Fox, District Probate Registrar for Wiltshire, it appears that the highest average of wills per annum was reached between 1661 and 1699, when there were 2.66; and the lowest between 1720 and 1780, when they scarcely reached 0.6.

² Two or three Thorncombe wills were proved at Exeter about 1840, possibly in error.

Court of the Bishop, but a small number of originals and transcripts are still preserved in the archives of the Dean and Chapter, viz. thirteen original and five copy wills, together with the probate of a will and an extract from some court rolls relating to another will, and seventeen of these documents are prior to the Act 21 Henry VIII (1529), which amended the law as to probate and administration. The dates of the whole range from 1257 to 1786. Two of these wills, and many others entered in the Episcopal Registers, have been given at length in the various volumes of Prebendary Hingeston-Randolph's Registers of the Bishops of Exeter.

Other single wills or groups of wills may be found scattered through various more or less ephemeral publications, most of them being copies of those at the Probate Registry. Several wills, dealing with legacies to the city or its charities, were copied and preserved among the Exeter City Muniments; some of these were printed in *Notes and Gleanings*, an archæological journal published in the years 1888–92.²

There is also a work by the late Charles Worthy, entitled *Devon Wills*, which sounds promising, but it contains only abstracts of wills that possessed some particular interest to the editor.

In most of the calendars there are gaps during the disturbed period of the Civil Wars. In the Archdeaconries of Barnstaple, Totnes, and Exeter no wills were proved between 1645, 1648, and

¹ It may be interesting to note that the document of this date is an early, but not contemporary, copy of the will of Walter Gervase, the public-spirited citizen and former Mayor of Exeter, through whose efforts the first Exe Bridge was built and lands purchased for its maintenance, at the cost of £10,000, and who is said to lie under the church of St. Edmund "on the Bridge" as it then was.

² The City Council has in its custody seventy-one wills (or copies), together with a grant of administration, extracts from two wills, memoranda of a will, and instructions for a will (the dates of the seventy-six documents ranging from 1555 to 1772); and also 212 inventories (ranging in date from 1560 to 1721), forty-five of which apparently belong to a like number of the above wills.

³ There is one will in the Totnes Court as late as 1659, and in the bundle for 1647 is the will of John Harvay, of North Petherwyn, proved in 1650, which, as that parish (as above stated) is in the Archdeaconry of Cornwall, ought, presumably, to be among the documents of the Bishop's Principal Registry, or of his Consistory Court.

PREFACE. ix

1653, respectively, and 1660, while in the Dean's Court the gap is from 1651 to 1660; in the Dean and Chapter's Court from 1652 to 1660 (but there are in the calendar of this court notes of three wills proved and five administrations granted in London from 1654 to 1659); and in the Bishop's Principal Registry from 1653 to 1660; but the other two courts have a few stray documents even down to 1659.

In the year 1858 the separate courts were abolished, and since then all Devon wills and grants of administration (including those of the three Devon parishes mentioned above as being in the Archdeaconry of Cornwall) have been recorded either in the District Probate Registry at Exeter or the Principal Probate Registry in London.

By Order in Council of 5th August, 1875, two other Devon parishes, viz. Broadwoodwidger and Virginstowe, were transferred from the Archdeaconry of Totnes to that of Cornwall, and on 23rd March, 1896, under the Local Government Act of 1888, there were transferred Churchstanton from Devon to Somerset, and Chardstock and Hawkchurch from Dorset to Devon, but none of these changes affected the various testamentary jurisdictions.

It is only necessary to add, for the benefit of those who are ignorant of the course of procedure in Probate Courts, that the wills proved in each provincial court were of testators possessing property within the jurisdiction of that court alone; if a testator possessed property in more than one diocese, it was necessary that his will should be proved in the Prerogative Court of Canterbury, the records of which are at Somerset House in London.

In the Library of the Archbishop of Canterbury at Lambeth there are preserved 35 Wills and 30 Administrations of Devon, persons dying within the province of Canterbury; a full list of all these documents is given in *The Genealogist*. Wills in vol. v, 211, 324; vi, 23, 127, 217. Administrations in vol. vii, 204, 271. New Series, vol. i, 80. They range from 1358 to 1581.

A great portion of the foregoing particulars of the various courts in the Probate Registry at Exeter has been kindly supplied by Mrs. Frances B. Troup from a paper read by her at the meeting held at Exeter 1st August, 1901, of The Devonshire Association, but where the particulars as now given either differ in some essential points from those in Mrs. Troup's paper, and from the *Index Devoniæ Parochialis* of the late Mr. Pitman Jones and George Oliver, D.D., or are wholly new, it is due to further information (both personal and documentary) obtained at Exeter by Mr. W. E. Mugford, to whom the Editor tenders his most sincere thanks.

The Calendars printed in the following pages are those of the Bishop's Principal Registry and of the Archdeacon of Exeter's Consistory Court, from the earliest date in each court to the year 1799. It is proposed to continue the printing of the other calendars, taking that of the Bishop's Consistory Court first.

A few words must be said about the reprinting of pages 1-3. The list given therein was a copy of some old loose sheets inserted, together with a partial index, in the only volume of registered wills in the Principal Registry of the Bishop, but since pages 1-3 were printed those sheets have been found on examination with the volume itself to be so full of errors that a new Calendar has been made by Mr. L. M. Dymond, of the District Probate Registry, for use in the Registry, and he has also revised and amplified the partial index. These reprints therefore supersede both the former

PREFACE. xiii

pages 1-3, and the list of early wills between 1571 and 1582 in the alphabetical arrangement on pages 4, 10, 31, etc.

With regard to the list appearing on page 674, about which some misconception has arisen, it is as well to state that these documents are in a bundle by themselves, and would appear to be in most cases, copies of wills which were proved in the Prerogative Court of Canterbury. It is well known that for the period 1653 to 1660, or thereabouts, probate was not granted at the local courts, but the wills were sent to London to be proved. But here (as in the case of some other local courts) copies were taken, probably for the sake of reference, and it is these copies that are calendared on page 674.

On page 286 is a footnote calling attention to there being no entries between March and October of 1634. The explanation of this, as Mr. Mugford points out, is that from 21st March to 10th October in that year no testamentary acts were passed in the courts of the diocese owing to a Metropolitan visitation being held but *all* wills and administration papers (even those from the Royal Peculiar of St. Buryan) are in the Bishop's Principal Registry (see pages 4–214). It will be noticed that under each letter of that calendar the year 1634 is of unusual length.

In connection with this year, Mr. Mugford desires to state that a few years ago he found among the Bishop's archives another bundle of wills for 1634, which was in a bad state of decay, but when removed to the Probate Registry all the contents were found to be duly calendared except one paper, viz.:

1634. Howe, John, Halberton. Inv.

On page 503 the Will of ALICE PETER, in 1604, is marked as missing, but an attested copy is among the City of Exeter records at the Guildhall, and it is possible that copies of some of the other missing testamentary documents may also be there.

Reference should be made to the most valuable work accomplished by Mr. Dymond, who has not only transcribed and alphabetised several of the calendars of the Exeter courts, but has completed the calendars of four of them by including in them the earliest records in the Registry of these courts, and

has thus made available to the antiquary and genealogist an enormous number of wills and administration papers of which they had not previously the slightest knowledge.

Thanks are due to Mr. Benjamin J. Vowler, of the Search Department in the Registry, for his unfailing courtesy and assistance; also to Mr. H. Elliott Fox, District Probate Registrar for the county of Wilts, for the valuable information furnished by him concerning the Peculiar of Uffculme.

CORRIGENDA.

Note that as pages 1, 2, and 3, and all the entries in the Principal Registry of the Bishop between 1553 and 1587 which appear in the alphabetical Calendar on pages 4, 10, 31, etc., have been reprinted in the Preface, pages xv-xxi, no notice is taken in this list of corrigenda of any errors that may have been made therein.

A great many more corrections have been noticed than are printed in this list, but on examining them with the manuscript Calendar it has been decided to leave them as they are, for some are found to be the old spelling of the place or name, whilst others are pretty obvious as to what they represent. After all, it must be remembered that this printed Calendar is but a copy of the manuscript Calendar at Exeter, and until an entirely fresh one is made from a careful collation with the documents themselves (which would be the labour of years) perfection can never be obtained.

As the Index Nominum was made and printed before the following corrections were received, it will be necessary to alter in the Index such names of Persons as are affected.
